

## Removal of a domain name

The advance removal of a domain name can only be carried out in the event where the domain name needs to be deleted before its effective expiry.

I have taken note of the following:

- FranceDNS will not apply any fee for carrying out this operation
- The destruction of a domain name does not give the owner any rights to any form of reimbursement or credit note.
- The permanent destruction will be carried out by the domain name registry in accordance with the procedures in force.
